### HEADTEACHER'S THOUGHTS THIS WEEK

Dear Parents,

Welcome back, whether virtually or face to face!

It has been wonderful to see the return of our Nursery and Foundation Phase children and we are so very proud of the way they have settled back in to school life. Hopefully, our older children will be joining us in the near future. In the meantime, I know that they will be working hard online and ensuring that their learning is their focus during the school day.

We have been overwhelmed by the standard of entries to this year's Eisteddfod competitions and look forward to revealing the results on Monday, March 1st - St. David's Day. Children are invited to wear either Welsh costume, rugby shirts or something red on this day.

Foundation Phase parents please look out for an email inviting you to book a parent/teacher meeting appointment. The meetings will once again be held via Microsoft Teams. Key Stage 2 meetings will be shortly after the Key Stage 2 children return.

Have a lovely weekend

*Mrs Daniels*

### Join us for a sing-song around the fire!

Monday, 1 March  
Time: 12:30pm  
Location: Your house!

Did you enjoy our first ever virtual disco as much as we did? Thank you to the **five thousand** of you who took part!

Join us virtually this Monday to celebrate Dydd Gwyl Dewi (St David's Day) with a lovely sing-song around the fire from a Tipi at Glan-llyn with a local family.

They'll be singing a series of Welsh traditional songs, with the words on the screen for you to follow.

Bring out the Welsh cakes and Bara brith and enjoy the event for the whole family on our YouTube [Urdd Gobaith Cymru](#).

A great first week in Reception

# Thank you PTA

The school is very grateful to the PTA for all their hard work and commitment in raising well needed funds. As a result of the success of events such as the recent Bingo night, the school has been able to continue to improve the outdoor learning environment as well as invest in more laptops and chrome books for the teachers and children to use.

The PTA commits a significant amount of money each year for the school to spend on IT so that it can continue to update and purchase a range of IT equipment. This enables children to further develop their important IT skills as well as helping them learn to become 'digital citizens'.
