

Emergency Procedures

- In the event of a lockdown, all parents and carers will be made aware of the situation, and kept up to date, via text message.
- Parents and carers are requested not to telephone the school during a lockdown as too many calls may block lines or interfere with emergency conversations.
- Parents and carers should not, under any circumstances, make their way towards the school as they may put themselves (and others) in danger.
- As soon as the threat has passed, parents and carers will be informed by text message and a follow-up letter will be sent within 24 hours.

If any parents or carers require extra information, please ask them to speak to the headteacher , deputy headteacher or assistant headteacher.
